sausage	hot bar	172						

Observations and Corrective Actions

Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

Spell

14 4-601.11 (A) Equipment, Food-Contact Surfaces, Nonfood-Contact Surfaces, and Utensils: There is black algae build up inside the ice machine. The ice machine needs routine detailed cleaning.

18 3-501.14 Cooling: Chicken in the walk in cooler was at 58 degrees. The chicken was prepared and improperly cooled the previous day. Foods are to be cooled within six hours once the temperature reaches 135 degrees. Two hours are allowed for the food to cool from 135 degrees to 70 degrees. Another four hours is allowed for the food to complete the cooling cycle from 70 degrees to 45 degrees, with total cooling time of six hours. I advised allowing the chicken to cool in flat pans rather than stacking such a large amount of chicken in the deeper single pan.

23 3-603.11 Consumption of Animal Foods that are Raw, Undercooked, or Not Otherwise Processed to Eliminate Pathogens: The establishment does cook foods to order and no notice is posted. The manager explained that inserts for the menu have already been ordered and just have not come in. This notice must be posted in the establishment.

45 4-204.13 Dispensing Equipment, Protection of Equipment and Food: Have Pepsi repair the switch on both drink dispenser lids so the drink machine shuts off when the ice bin lid is open.

Observations and Corrective Actions

Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

47 .4-601.11 (B) and (C) Equipment, Food-Contact Surfaces, Nonfood-Contact Surfaces, and Utensils: Detailed cleaning is needed on the fan covers inside the walk in cooler, on the shelving inside the walk in cooler, as well as on the sides, legs, door handles, and hinges of various equipment throughout the establishment.

49 5-203.14 Backflow Prevention Device, When Required: A proper backflow preventer is provided at the can wash but the device was not hooked up properly at the time of inspection. This issue was corrected.
