## Observations and Corrective Actions

Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

- 1 The person in charge of this facility has not completed an approved food safety course. By January 1, 2014 the person in charge of this facility must complete an approved food safety course.
  
- 14 Several utensils were found dirty. Take more time when cleaning and sanitizing these items.
  
- 42 Cleaning is needed on all utensil storage bins. Utensils (pizza pans) and equipment ( a hot holding unit, racks, and hot holding delivery bags) were found stored on the floor below the seats of the first 2 booths on the left side of the dining room. This is not an approved storage method for storing utensils and equipment. Keep these items above the floor on approved shelving units.
  
- 45 Repair the damaged top cover , missing hinge covers, and missing temperature display on the retarder in the front prep area. Chains have been installed to support the wire shelving units mounted to the walls throughout the facility. Remove the chains and properly reattach the shelves to the wall. The paint on the hood system is bubbling. Repaint the hood system with a proper equipment paint that is rated or high temperatures. Repair the leak below the ice machine at the rear. Repair the drain board on the clean side of the dish machine so that it is sloped to drain. Replace the damaged large bins used to store utensils. Replace the missing cover on the proofer in the rear prep area.
